

Tech Requirements for *Mind Kontrol* or *Mega Magic*

The theater would need to supply **2 techs and 1 stage hands** for music, video, live eye and lighting cues.

A projector screen and “live eye” video camera would be ideal but not required. The theater would need to supply the following...

- Sound System
- USB Player for Music
- Lighting
- Projector & Screen (Not necessary but ideal)
- 2 Technical Assistants to help run the show
- 1 Stage Hand

Here is a breakdown of our technical requirements for the full production show...

In-House Audio:

- We will supply 1 wireless headset microphones (XLR input).
- Music to be played from a USB
- Auxiliary Cable directly on the Stage (1/8th Headphone Jack)

In-House Projector(s):

- Video camera for the “Live Eye” feed (I can supply a camera or use the in-house camera)
- Ability to play a Video from a USB Stick
- Graphics on USB Stick

In-House Stage Lighting:

- Basic Lighting Wash and ability to dim lighting
- Ability to control House Lights
